Capability to carry Lithium Batteries Sec II - Except PI965 from Finland to all destinations.

**General Note**

Lithium Batteries Section II not requiring a lithium battery marking can be shipped worldwide. This is not valid for shipments to - Faroe Islands - Greenland - North Cyprus (Destination Code ECN in Turkey) - Qatar (PI970 forbidden even not requiring a Lithium Battery mark) due to Operator restrictions on DHL network route. Lithium batteries that have been identified as being defective for safety reasons, or that have been damaged on the outside, or that have the potential of producing a dangerous evolution of heat, fire or short circuit are forbidden for air transport. Important: For shipments meeting above conditions, there is the requirement that the consignment is limited to a maximum of 2 packages (each containing maximum 4 cells or 2 batteries contained in equipment). If the shipment exceeds 2 packages, the application of the lithium battery marking (and the subsequent requirements) apply. UN3090 Lithium metal batteries, Section II, PI968 are completely forbidden for DHL Express TDI

Notes	Description
Y	Accepted
Y01	Accepted with conditions: MSDS (Material Safety Data Sheet) or SDS (Safety Data Sheet) or PIS (Product information sheet) including Wh-rating and classification information of product is mandatory.
Y03	Accepted with conditions: Postal codes starting with 9xxx (Madeira Islands and Azores) are not open to Dangerous Goods shipments.
Y06	Accepted with conditions: Dangerous Goods shipments can only be sent to/from the following areas: Istanbul, Ankara, Izmir, Denizli, Adana, Kayseri, Gaziantep, Antalya, Bursa.
Y10	Accepted with conditions: Jan Mayen and Svalbard are not open for Dangerous Goods shipments.
Y15	Accepted with conditions: Pick up on Day 1-4 only.
Y29	Accepted with conditions: Some destinations in the BJS, CTU, FOC and HAK service areas involve transportation via a domestic air sector within CN. Shipments containing batteries (of any kind including lithium batteries under section II) can only be uplifted by air within CN if a "non-DG certificate" is provided by an authorized test agency in compliance with China regulatory requirements. If the "non-DG certificate" cannot be provided, surface transport may be arranged with 3-7 additional transit days (depending upon the destination). Please contact Ray Pan (ruisheng.pan@dhl.com) for more details.
Y32	Accepted with conditions: Lithium Batteries (Ion and Metal) packed according to Section II of PI 965/966/969 are restricted due to CAL (operator restrictions) on the following postcodes: 83130-84299; 87010-98499 and will thus incur additional shipping time due to road transport. Shipments to/from the Isle of Gotland (ARN-XXV, Visby, postcodes 62137-62470); Section II of PI965 cannot be accepted! PI966 and PI969 will incur additional shipping time.
Y37	Accepted with conditions: Loose overpack e.g. flyer is not acceptable.
Y38	Accepted with conditions: Shipments can only be sent to/ from Zagreb, Split, Rijeka, Pula, Zadar, Osijek and Slavonski Brod.
Y44	Accepted with conditions: Postal codes starting with IM (Isle of Man) are not open to Dangerous Goods shipments.
Y59	Accepted with conditions: only PI966 and PI967 are allowed as connection established via CAL on KLM
